

VALUE OF THE APPLE CROP.

Although we hear but little about the value of the apple crop, it is a fact that on an average yield it is worth more than the average cotton crop, and of the great cereal crops only corn exceeds it in value year after year. Only occasionally and in exceptional years is wheat worth more. According to the Chicago Record the American apple crop for 1900 aggregated 215,000,000 barrels, being worth at an average price of \$2 per barrel the enormous aggregate of \$430,000,000, while in the same year the corn crop footed up \$629,210,111, wheat \$319,545,269, and cotton \$305,467,041.

In the above estimate of the apple crop, presumably no account is taken of the millions of barrels that were made into cider, vinegar, jellies, preserves, etc., on the premises where the fruit was grown. No statistics can do justice to the yield, monetary value or dietetic worth of the American apple. As the strawberry is the best berry, so is the apple, in spite of the part it took in Adam's fall, the best fruit known to man. It is the king of American fruits.

HAPPY PHILADELPHIA.

The great public building of Philadelphia, which has been so many years in construction, has at last been turned over to the mayor, as the representative of the city. The cost of this mighty mass of masonry was \$24,000,000, making it a political "operation" beside which the famous Tweed court house in New York seems petty larceny.

Because of its regard for the character and public services of Senator Quay, Philadelphia has lately presented to him and his business associates thirteen great street railroad franchises, without price, tax or limit, a reward of more millions than Britain bestowed upon Marlborough and Wellington together. Thus no sower is a bonanza of revenue for the politicians worked out than another, richer and larger, is opened. Forty Wakefield mimes wouldn't be a patching to either. Happy Philadelphia! Happy Pennsylvania!

The "King's evil" is an old and acute disease, but it yielded to the treatment of physics and a century and more ago the trust evil is of modern date and it appears to confound the political doctors of the age, both in diagnosis and their attempts to find a specific for its cure.

The JOURNAL's treatment would be: Firstly—Apply the knife to the tariff law, cutting off all duties upon the products of the patient. Secondly—If necessary apply a tax blister which would draw down the million dollar salaries and reduce the profits swelling to the normal proportion of wholesome and legitimate business gains. If these did not suffice, we would pronounce the disease incurable and turn the patient over to the devil and the undertaker.

BRYANISMS.

[From The Commoner.]

Our great and good friend, Abdul Hamid Woolimol, sultan of Sulu, is satisfied as long as the salary voucher follows the flag.

People who cling to the old superstition that Philadelphia is slow should make note of the rapidity when an opportunity is offered for plundering the public.

It is amusing to read in a high tariff organ words of rejoicing because American manufacturers are competing successfully with foreign manufacturers. The high tariff organs are continually shrieking for protection against competition.

It is estimated that 75,000 yards of ribbon will be required to properly fit out Great Britain's South African war medals. This is only about three yards of ribbon for each British soldier who has died in the unjust war upon the Boers.

It is remarkable to note the avidity with which the administration organs seize upon and reprint all the arguments against fusion advanced by the Democratic newspapers that have either openly supported the Republican ticket or sulked through the campaign.

Some of the Republican newspapers suggest that Democratic editors should apologize to Judge Harlan for the criticism made against the appointment of his son. Not at all, but the Republican editors ought to condole with the president because the appointment of Justice Harlan's son did not have any effect on the father.

QUICK AND NEAT PRINTING

The Journal has now the best equipped job office in the State. New and up-to-date type, latest stock, four presses. Work is executed in the best of style for living rates. Delivery made when promised. Don't send out of the State for your printing. It can be done just as well at home.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50 cents. Sold by S. J. Hodgkinson.

SYRUP OF FIGS

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectively, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.

TELEGRAPHIC.

EL TEBLOR PAYS VISIT TO EASTERN NEVADA

Special to the Journal.]

SALT LAKE, July 26.—A section seventy-five miles wide, through Nevada, from Deeth as far west as Carlin, experienced a series of heavy earthquake shocks about 2:30 this afternoon. At Elko the shocks were unusually severe. The High School building a big brick edifice, was badly cracked by the violence of the vibrations, and a number of other building were slightly damaged. A few minutes after the shock, a violent wind and rain storm, accompanied by heavy thunder and lightning, burst over the town, the rain continuing several hours.

Steel Strike Grows More Serious.

Special to the Journal.]

PITTSBURGH, July 26.—The great steel strike now threatens to extend to the steel furnaces, in which event thousands of men will be thrown out. The trust managers now seek to make their employees sign contracts not to join unions. Several plants will try to reopen Monday with non-union men. The situation is considered to be very grave.

Campaign Against Organized Labor.

Special to the Journal.]

SAN FRANCISCO, July 26.—The strike here is assuming most serious proportions. Employers tonight began a campaign against organized labor by discharging union men.

Railroads to Consolidate Agencies.

Special to the Journal.]

CHICAGO, July 26.—Southern and Union Pacific agencies in all the cities will be consolidated on September 1st.

ABOUT MINE AND MINER

Items of Street and Town too Brief for Separate Heads.

Ore shipments from Eureka last week were 94 tons and from White Pine 50 tons.

It is again reported that active operations will begin in the Elko oil fields by the last of this month.

Sampel Scoville, a Philadelphia attorney representing mining men of that city is now making an examination of Tuscarora properties.

The Tuscarora Miners' Union has petitioned Nevada's representatives in Congress to secure the renewal of the Chinese exclusion act.

A large shipment of lumber and machinery is being hauled from Elko to White Rock, where mining operations are going forward on an extensive scale.

It is reported today that parties in Los Angeles have signed an agreement to begin boring for oil in the Elko field within the next sixty days or forfeit \$1000.

Yesterday while Bill Barrett was putting in a hole with a machine at the Con. Virginia the drill commenced to get contrary; when, all of a sudden the thing flew out of the hole and gave Mr. Barrett a terrific welt in the head. The drill was not injured.—Report.

Lyon county shows a great mining activity at the present time. The Bluestone, Bluejay and Boston & Montana Companies are operating extensively, while a large number of private owners are developing properties which give much promise of ultimately proving valuable.

Jim Gardner came in from the Delaware mine yesterday. He reports the shaft down one hundred feet and the ledge still holding its former size and values. Jim says that the miners are

working six feet per day without the use of powder. The mill was shut down yesterday as water is rather low.—Appeal.

Thomas Berry and sons have reopened the tunnel on the Brophy face and have laid 600 feet of track and put in 100 feet of timbering. They have begun sinking on the vein which is four feet wide showing an average gold value of \$6 per ton and the ore is widening as sinking progresses.—Chronicle.

Mrs. Ida McKinley wife of the President, and her sister, Mrs. Barber, through their attorneys, A. E. Cheney and Oscar J. Smith of Reno have begun suit in the United States Court at Carson against John Steele and William Hayes for the possession of the Eljah mine, located near Ely, White Pine county.

THE ARTIST TAILOR.

W. Schur, the artist tailor, began business in Reno in a small way a year and a half ago and has built up a splendid trade. He is a tailor for many of the most prominent people in this city. His work always gives satisfaction. Mr. Schur makes a specialty of ladies' tailoring. He worked six years at this business in Paris. 2wks

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all eruptions, Fever Sores, Bolls, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, scalds and Piles. Cure guaranteed. 25 cents at S. J. Hodgkinson.

ENTIRE STATE RESPONDS TO QUICKENING IMPULSE

Every County in Nevada Feels the Blood of New Life Throbbing Through Its Veins.

Nevada Rediviva! This is the watchword of the State. After long years and decades of decreasing population and languishing resources a new era has dawned.

The Journal, in scanning exchanges from the various counties, notes that the spirit of growth and improvement has imbued every section of the State.

EUREKA.

Even Eureka, with its silent mills and deserted mines or demonized white metal, is making discoveries of new ore bodies of sufficient value to permit shipment.

STOREY.

Even Storey—"sad relic of departed days"—has begun the ascent from bed-rock. The introduction of electric power and discovery of excellent ore bodies in hitherto unexplored ground have stimulated business and stopped the outflow of population. The Comstock mines are again paying bullion tax and other mines in the county are producing profitable ores.

ORMSBY.

Ormsby has awakened from the stupor of two decades and is showing life and strength. The recent carnival was evidence that Carsonites have become imbued with the spirit of progress.

DOUGLASS.

Douglas is rapidly becoming the seat of wealth. The productive valley of the Carson is tenanted by progressive people, who have redeemed the desert and made it to blossom like the rose. Under co-operative methods flour mills and creameries are demonstrating to the world that what Nevada produces is equal to the best.

LYON.

Lyon county is forging to the front, especially in the mining industry. Great lodes of copper ore are being developed by largely capitalized companies, smelters are being built and prosperous towns are springing up.

ESMERALDA.

Esmeralda is also beginning to realize the hopes of its people that it is destined to become a mining county of importance.

The coal fields at Columbus are being opened up and the fuel question solved for that section of the State. The Vulcan Company, backed by \$5,000,000, will make a great producer of the copper mine near Soda Lake. An eastern syndicate has purchased the holdings of the Hawthorne Mining Company and is developing the large lode of free milling ore recently discovered.

NYE.

Nye county a year ago was a retrogressive section, but the discovery of the great Tonopah bonanza has caused the eyes of the mining world to be turned in its direction and investments are being made in other sections of the county as well as Butler City.

LINCOLN.

Lincoln, "Tropical Nevada," is destined to shortly become one of the Empire counties of the State. Not only are the mineral resources there being extensively developed, but the building of the new railroad insures a market for the products of the county and a consequential increase in production.

CHURCHILL.

Little Churchill is steadily improving. The fertile sink of the Carson is producing splendid crops and the farmers are a happy and prosperous people. The proposed system of storage reservoirs will enable the reclamation there of tens of thousands of acres of the most fertile soil in Nevada. The proposed Central Pacific cut-off will enable the cheaper marketing of produce and vastly benefit the county. The mining camp of Cottonwood in Churchill is destined to become a great producer.

LANDER.

The stock industry in Lander county has lately received a healthy impetus. Mining is also being more extensively carried on there than for many years.

HUMBOLDT.

Humboldt is on the up-grade. The varied resources of this county are giving it great prosperity. Lovelock Valley, particularly, is forging ahead. This county has become third in importance in the State, rising in the past two years from fifth place.

ELKO.

The great county of Elko, with its well watered ranges, its fertile valleys and its productive mines, has an assured future. The recent discovery of coal and the possibilities of petroleum are stimulating activities there.

WHITE PINE.

In no other section of the State has there been such a boom in mining as in Old White Pine. In this county the high grade ore bodies have for years been practically exhausted and attention has recently been turned to huge low grade leads with promise of great profit. The Chairman alone will enrich the county.

WASHOE.

As to Washoe little need be said. The county is advancing as never before. Verdell with its lumber industry, Wadsworth with its car shops, Olinghouse with its mines, Washoe and Franktown encircled by their productive farm lands and Reno, the growing metropolis of the State and coming city of importance in commerce and mining—all these towns are going ahead and their inhabitants looking at the future with confidence and assured hope.

A LAW UNTO THEMSELVES

0 cities Honored in the Breach Rather Than in the Observance.

It is surprising the number of town ordinances and State laws that are considered dead letters in this city.

In the first place bicycle riders consider that their right to use the sidewalks is the same as that of pedestrians. What if a woman or child is occasionally knocked down and injured. "This is a free country," exclaims the gleeful cyclist.

The city fathers some time ago passed a law that all awnings and swinging signs must be elevated to a point at least ten feet above the sidewalk. This ordinance appears to be pretty generally honored in the observance.

Then, again, there are the unprotected sidewalk trap doors. It is just as easy for the unwary pedestrians to fall into them today as it was before the railing ordinance was passed.

The burning of rubbish is not noticeable to the extent it formerly was, but the careless householder still occasionally sets a heap of trash to burning and forgets all about it until the fire bell notifies the public that a stable is on fire. A list of these breaches of law might be indefinitely continued, but what's the use? The officers are making arrests right and left but are not by this means bettering conditions much. It looks to the Journal man that a publication of these ordinances and distribution of copies would to a great extent assist in the matter.

If the ordinances are distributed a copy should by all means be sent to the Central Pacific Railroad Company. It might result in an order to cut trains at crossings and reduce speed through town.

TOWN DEPOPULATED

One effect of this protracted hot spell has been to send all the world figuratively speaking, a-camping.

While a large number of Renottes are at the sea coast, the majority of the out-of-towners have fled to the mountains.

Webster, Independence and Tahoe have each large delegations of River-sliders.

ANENT THE STATE FAIR

The Coming Meet Promises to Be a Week of Good Sport.

"Old Folks" Pickett, the well known cockey, has arrived from Honolulu. He will ride during the State Fair.

Superintendent Shane will commence whitewashing the fences and sheds at the fair grounds soon. He has ordered painting to begin today.

The track is about finished for fast work. When completed it will be the speediest on the coast, especially for runners.

Odd Eyes, owned by T. P. Schwartz of this city, broke the world's record at Butte, Montana, going the 1-1/2 miles in 2:02 over four hurdles. The previous record was 2:02 3-4 in Chicago in August of 1908. The purse in Butte for this race was smaller than those offered by the Nevada State Agricultural Society for its next meet.

The premium list for the fair is ten per cent higher than the Butte list, where all the San Francisco horses have gone.

The premium list for this fair warrants all of these horses stopping here on their return.

REMOVAL NOTICE

To the public—We have moved our stock from the Sierra street office and are now established in the Journal office, where we are prepared to do job work of all kinds. Continuance of our past patronage requested.

WHITE & CASE, "The Quick Printers."

THE MERRY OWLS

A picnic was held Thursday evening at Poor's grove by the Owl Social Club. About thirty couples were in attendance. Dancing was one of the principal features of the evening. There was the best of music. The grove was very prettily lighted with electricity.

THE EMIRCH PROSPECT

George Short and E. Dunn have a contract to develop a group of claims owned by W. Emrich in Wedekind district. They have sunk to a depth of 90 feet in promising formation and will go ten feet deeper, after which they will drift.

THE CIRCUS IS COMING

Arrangements are now under way for the appearance of Ringling Brothers' World's Greatest Shows in Reno, Saturday, August 17th, has been definitely decided upon as the date of the big show. Ringling Brothers need no introduction to the people of this community. The reputation of these Napoleonic showmen and the magnitude of their great exhibition are familiar to the public, from the Atlantic to the Pacific. Beginning in a small and modest way a little more than a dozen years ago, the show has developed from an ordinary one-ring circus, employing less than a score of people, to the largest and most complete circus, menagerie and hippodrome in the United States. This phenomenal growth has been a healthy and legitimate one, for it has slowly kept pace with the growth and popularity. Last season the exhibition seemed to have reached the utmost limit of size and scope, and yet this year shows a still greater expansion and the introduction of hundreds of new, novel and original features never before associated with a circus. It has now reached a point where it is beyond rivalry and there is nothing with which to compare it except its own previous record. In magnitude, in sensational features, in the number of its European and American artists, in the beauty and magnificence of its paraphernalia, in the completeness of its world-gathered zoological display which presents the only giraffe on earth.

TELEPHONE CONSTRUCTION

Superintendent of Construction Kearns of the Sunset Telephone and Telegraph Company is spending a few days in Reno. He reports the line to Wadsworth being rushed forward. The wire has been strung for a distance of seven miles.

As soon as Wadsworth is connected a line will be run from Virginia City to Carson via Silver City and Dayton.

A number of improvements are being made to the local system. There are now 305 instruments on the Reno exchange. An addition to the switchboard and a probable increase in the number of operators will soon be necessitated.

SERVING WRITS OF ATTACHMENT

CROWLEY WAS NOT PARDONED

The Board of Pardons visited the State Prison this afternoon to have a look at Patrick Crowley, who was said to be very ill.

They returned about 3 o'clock and took a vote on the pardon which resulted in a denial of the application and Crowley will remain in the prison.

Governor Sadler and Attorney General Woodburn voted for pardon and Supreme Judges Massey, Belanap and Fitzgerald against it.—News.

A RUNAWAY

A little excitement was created on Virginia street last evening by a runaway horse. The quadruped was attached to M. J. Kieley's milk wagon and the latter ran away also until a drawhead pulled out or a coupling pin broke when vehicle and steed parted company. Chris Kieley was at the throttle and he held with the runaway which dragged him out of the wagon. No serious damage was done.

NO DAMAGE DONE

An alarm was rung in from box 5 at 11:40 yesterday morning for a fire on the Chinatown dumps. Nothing but garbage was consumed. This is the second time within ten days that the department has been called out for fire in the dumps.

A LAWN PARTY

Last evening the Odd Fellows and Rebekahs of this city gave a lawn party at the residence of G. W. Mapes. The proceeds of the party will be donated toward providing a fund for the erection of a children's hospital in this city.

FETE CHAMPETRE

A lawn social will be given by the Ladies of the Maccabees on the evening of July 31st at the home of Lucie Davenport on Sierra street. Ice cream and cake 15 cents. Everybody invited. 7:30 o'clock.

A CORRECTION

The next entertainment given by the Reno Wheelmen will not be a public affair as announced. It will be a social dance for members and their lady friends only.

NOVELTY DRY GOODS STORE

Phone B'ack 242 O'CONNOR BLOCK (Opposite Postoffice) RENO, NEVADA

A BLOODLESS GUN FIGHT

The Outcome of an Altercation Between Two Railroad Men.

A bloodless battle occurred at 3 o'clock yesterday afternoon in the Nevada-California-Oregon car shops the participants were Master Mechanic Valle and Walter Pickrell, who resides at 215 Plaza street.

The latter has for some time past been serving the N-C-O. Company as a foreman and later engineer on the Sierra Valleys branch.

He either resigned or was discharged day before yesterday and resolved his clearance papers. The latter were not made out to his satisfaction and he went to the car shops yesterday afternoon to have an understanding with the Master Mechanic regarding them.

An argument arose which developed into a quarrel. Several workmen were near at hand, but paid no attention to the dispute until they heard a shot fired, when they separated the combatants.

Mr. Pickrell swore to a complaint against Mr. Valle and the latter was arrested on the charge of assault with intent to kill.

He was released under \$500 bonds. The examination will take place Tuesday.

PARSEE, THE PROSPECTOR

Continues His Laudable Task of Reforming This Wicked World.

Parsee the prospector, continues to pursue his belligerent course. When the Great American Kicker shuffles off this mortal coil, Parsee will undoubtedly be chosen his successor by a unanimous vote.

Yesterday Parsee wandered into the Journal office and registered as powerful a kick as his same leg would permit. Of course, his weakness in this respect was known to the entire force and their was no attempt at self-defense. A new man in the shop laid down his stick, got off his stool and was on the point of forcibly ejecting the kicker until the situation was explained.

Parsee is bent on reconstructing the universe and operating it under a system devised by himself, aided and abetted by Doctor Kerfoot and Aleck Triclan. It will probably require a year or two to get the new order of things grafted on and in running shape, but it is bound to come sooner or later.

Yesterday afternoon Parsee was passing the Dormio building and was struck on the head by a descending mortar bucket.

The kick that followed was picturesque, oratorical and sublime.

Not satisfied with reciting the Declaration of Independence and a poem by Jim Sullivan to the unhappy mechanics, Mr. Parsee telephoned for the cops and the fire department.

Parsee was not suppressed until he had his kick out, after which he dismissed his audience and called for a stein of pepper and tobacco sauce.

Mr. and Mrs. Fred W. Howe of San Luis Obispo are guests at the Riverside.

W. H. Jackson, a mine owner of Olinthouse Gulch, had business in Reno yesterday.

R. S. Ruble, travelling passenger agent for the Union Pacific, spent yesterday in this city.

C. S. Clough has returned from Susanville where he secured an important building contract.

Jay Clemmons and family leave this morning for the lakes. They expect to be absent about two weeks.

L. G. Loomis of Los Angeles, a former Reno boy, came up from the Sunny Southland last evening to visit friends.

Mrs. E. Colwell and her daughter, Miss Mary Taylor, are paying a few days' visit to Miss Mary Henry at Truckee.

LITTLE LOCAL BREVITIES

Notes Gathered From Exchanges About This Industry.

The daily Journal is on sale at Harry Davis' Model store.

A. B. C. bottled St. Louis beer the finest beer on the market at Thyne's.

The reconstruction of the Becker building on Sierra street has begun.

A. T. Dormio has decided not to rebuild the Maccaroni factory, which was recently destroyed by fire.

Yesterday was one of the hottest days of the season. The mercury neared the hundred degree mark.

Argument in the case of Webster & Son vs. the County of Washoe has been postponed until next Tuesday.

"Uncle Dick" Ryland is burning a kiln of 350,000 brick for local builders and for shipment to Carson and Winnemucca.

The stranger who was injured night before last by falling from a freight train, was resting easily yesterday and on the road to recovery.

The preliminary examination in the case of State of Nevada vs. Webb, charged with selling liquor to Indians was again taken up in the Justice Court yesterday and was again continued.

The healthiest drink this hot weather is pure, wholesome beer. Anheuser-Busch is made after scientific and sanitary principles. This beverage is handled by the Monarch Saloon Company.

The river is falling rapidly, but is still carrying considerably more water than at this time last year. Irrigators have plenty of water and think that the supply will hold out for the entire season.

The Monarch is the best dining place in the city. Regular meals and short orders served. Commercial lunch at noon is an attractive feature of the house. Proprietor Simpson strives to please his patrons.

This is the longest spell of hot and dry weather ever had in this community. The clouds gathered together Friday and threatened rain, but it was only a bluff on the part of the weather man. Our weather sharps says that when it does start to rain look out for floods.
